

COMPTIA SECURITY+

CompTIA Security+

The CompTIA Security+ certification is an internationally recognized validation of foundation-level security skills and knowledge. The course will certify that the trainees can identify risk, participate in risk mitigation activities, and provide infrastructure, application information, and operational security. This course will offer the trainees knowledge of security controls to maintain confidentiality, integrity, and availability. This class is a good fit for an IT manager or CIO.

Recommended Experience

- Experience in IT administration with a focus on security
- Broad knowledge of security concerns and implementation
